A discussion took place by the Councillors and the following comments were submitted to Bath & NE Somerset Council Development Management Department:

The variation is an improvement but the style of fencing is more urban than rural and is not suited to the rural setting.

The hedge would be more suited to the rural environment if it was planted with mixed native species.

According to Parish Online maps, the lamp post (008), should be outside the boundary of the property, but appears to now be incorporated within the boundary of the property.
